UK			telephone interview	2000	41.4	18-64	984	403	581

<sup>A</sup> Response rate is a supplementary! Sample was used in 44,3 % of the cases (not perfectly clear, but it seems that not all should be counted as non-response, some may be neutral).

<sup>B</sup> only estimate from other surveys, probably as low or even lower than 60%

<sup>C</sup> sensitive: sexual and romantic relations, violence, illicit drug use

<sup>D</sup> represents Western, Eastern, Northern, and Central regions

<sup>E</sup> excluding Alaska and Hawaii

<sup>F</sup> excluding former East Germany
